Notes on boost control:

- 2.1. Values are boost pressure ratios and need to be multiplied by the ambient pressure to get the Pboost limit.
- 2.2. Competitors must adjust boost pressure relative to ambient pressure at each event
- 2.3. Control of Pboost strategy as per document attached

Notes on weight and restrictors:

- 1.1. The fixation of additional weight on top of the homologated weight must be approved by the Technical Delegate.
- 1.2. Technical drawings of air restrictors must be registered with the FIA. Only restrictors in compliance with this registration are allowed.
